OBJECTIVE

Hard working and motivated computer science graduate seeking a career in software development.

SUMMARY

- Bachelor of Science in Computer Science graduate with deans list honors
- Proficient with C++, Java, C#, Python, SQL, JavaScript, PHP, HTML, CSS, and Linux

EDUCATION

Bachelor of Science in Computer Science, December 2016

Colorado Mesa University, Grand Junction, Colorado

Graduated with a GPA of 3.69 on a 4.0 scale towards major

Courses included:

Software Engineering	User Interface Design
Operating Systems Design	Object-Oriented Programming
Website Development	Java, C#, and Python Development
Database Design	Computer Architecture and Assembly Language
C/C++ Programming	Computer Networks

EXPERIENCE

Software Developer Internship, May 2015-August 2015

Uhl Construction, Allison Park, Pennsylvania

- Developed a document manager which allowed workers to quickly access and modify remote documents securely from a computer or mobile device.

SKILLS

- Writing and maintaining efficient, well organized code.
- Designing user interfaces and testing user experiences.
- Working with GIT revision control workflow.
- Using and creating REST services with OAuth2.

PROJECTS

The Point iPhone App - designed and programmed an iOS application for a local restaurant and bar that allowed customers to view a digital menu and order directly from their phone.

Smart Outlet - a custom built outlet that connects to an Arduino Uno running a http web server which lets users toggle the outlets power via web page controls.

ACTIVITIES

- Member, Association for Computing Machines, Student Chapter, 2012-Present
